

# Programming: The Next Step

# Group presentations

1. Sit with your supervisor
2. Present 2 minutes
3. Brief feedback afterwards

# Presentation

Extend shared presentation. Use 2 slides (show, don't tell):

## 1. Superpowers

- a. Version control: how do you keep track of changes/versions?
- b. Coding style: what's your style?
- c. Documentation: how do you make sure you and others can understand your code?
- d. Unit testing: how did you test core functions in your code?
- e. Error provision: how did you ensure meaningful error descriptions?

## 2. Progress

- a. Past: what have you done so far?
- b. Future: what's next?

Present **next week** in **2 minutes**.

# Next week

Alpha testing! Get your software ready for others to use it.

Happy coding!
